

Rock garden with waterfall

There is a state of art garden and parking slots, just in front of our hotel. This houses a few sit-outs, artificial water falls, and a variety of ornamental plants that gives a tranquil garden retreat. The guests can have an ideal break from noisy pollution and monotonous city life. They can enjoy the cool, fresh breezes of MADIKERI.

Coorg is the blessed land that has given generals like K.M.Kariappa, K.S.Thimmayya and many more brave soldiers and thus is named the "LAND OF GENERALS". Known as "The coffee bowl of India", the Coorg is one of the most enthralling hill stations of India. More often than not, people from all parts of India and abroad visit Coorg and become a part of the cultural heritage. They take back with them the unique culture that they have experienced. Coorg is a place visually as stunning as Scotland, Switzerland, Kashmir of south India all rolled in to one.
